Subject:	Waymo/Uber- Kalanick Configuration File Production
Attachments:	8.23.2017 TK Config File Production .7z

Counsel:

Attached please find Mr. Kalanick's production of configuration files that reflect the automatic deletion settings for his iPhone. The configuration files are produced natively as .plist files and can be viewed with advanced text editors such as Notepad ++.

Also attached is a Microsoft Excel spreadsheet exported from the Cellebrite tool that serves as a legend for the configuration files that are being produced.

Password to follow under separate cover.

Thanks

Rob
